Summary

I am a full-stack web developer with a background in communication, problem-solving, and organization that adds a unique value to any team. I am committed to continuous improvement by deploying efficient and optimal solutions.

Work History

2023 - 2024

Front-End Developer for AI Startup

Logiciels Hadaly Inc. @NextAi, Montreal, QC

Responsibilities:

- Lead the design and implementation of the front-end for two desktop and mobile applications.
- Collaborated with the back-end for the integration of AWS and the deployment of RESTFul APIs.
- Optimized production by inserting the Agile methodology into the workflow.
- Adopted unit testing which helped with the quality but also with the speed at which code was being produced.

Achievement:

- Deployed two web apps for the startup and helped boost their outreach by demonstrating the product to potential clients.

Technical Environment:

- Agile, Git, Vercel, React.JS, TypeScript, Tailwind, Python FastAPI, AWS, GCC, HTML, CSS, JEST, Playwright

Education

2021 - 2023

DEC: Computer Sciences - Video Game Programmer

Lasalle College, Montreal, QC

Main Focus:

- Programming with C# and C++ using the Unity Engine and Unreal Engine.
- Adopting the Agile methodology into our collaborating projects.

Technologies:

- Agile, Unity C#, Unreal C++ and Blueprints, Java, SQL

2020 - 2020

AEC: Computer Sciences - Full-Stack Java Developer

MCIT, Montreal, QC

Main Focus:

- Developing RESTFul back-end applications using Java SpringBoot and J2EE.
- Database management using Oracle SQL.
- Front-End basics using HTML, CSS, and Bootstrap.

Technologies:

- Java, SpringBoot, J2EE, Hibernate, SQL, HTML, CSS, JavaScript

Other Work Experience

2018 - 2023

Warehouse Clerk

Virginia Farms, Safran, JYSK

Responsibilities

- Assessed demands and questions by keeping a constant contact with clients.
- Organized items for on demand return and optimized workflow by changing stock position in optimal locations.
- Audited documentation from reception and verified integrity of items.

2013 - 2018

Technician Assembler

Bombardier, Pelican International, ABB Australia, Bühler Group UK

Responsibilities

- Collaborated and supervised teams introducing new workflows to help with the production process and balancing the distribution of tasks.
- Increased production rate without creating stress by detecting and replacing key factors that could hinder production.
- Developed continuous improvement and safety ideologies by studying the work environment and suggesting improvements.
